## **CONSTRUCTION NOTICE**

### **Village Road Program – Summer/Fall 2019**

**\*Scheduled to begin on JULY 17<sup>th</sup>, 2019**

**This project will include the following streets:**

<b>Kildare Ave</b>	<b>146<sup>th</sup>-147<sup>th</sup></b>	<b>Kenton Ave</b>	<b>145<sup>th</sup>-147<sup>th</sup></b>
<b>Tripp Ave</b>	<b>143<sup>rd</sup>-145<sup>th</sup></b>	<b>Kolin Ave</b>	<b>143<sup>rd</sup>-144<sup>th</sup></b>
<b>Kilbourn Ave</b>	<b>143<sup>rd</sup>-144<sup>th</sup></b>	<b>Lavergne Ave</b>	
<b>Kolmar Ave</b>	<b>143<sup>rd</sup>-147<sup>th</sup></b>	<b>(from just north of 145<sup>th</sup> street to just north of Billy Casper Drive)</b>	
<b>Kenton Ave</b>	<b>143<sup>rd</sup>-144<sup>th</sup></b>		

The details of this program involve pavement resurfacing, areas of partial full-depth pavement removal and replacement; roadway base repairs; curb replacement, removal of asphalt ramps and mountable curbs across driveway entrances. Also included is partial driveway apron replacement to meet the grade of new curb lines and sidewalk replacement.

If curb and gutter is removed in front of your driveway, you will not be allowed to park in your driveway for 7 to 10 days. This time is needed to give the new concrete sufficient time to "cure" and to support the weight of vehicular traffic. Concrete work, including curb and driveway apron replacements, will be limited to one side of the street at a time to allow for on-street parking while the new concrete is curing.

**The work consists of only removing and replacing the portion of a driveway apron necessary to meet the grades of the newly depressed curb line. Per our village ordinance, the "apron" of a private driveway is the responsibility of the property owner. The sub-contractor, Iroquois Paving Corporation, will not take on any private asphalt work. Concrete work is available through Vito at Davis Concrete at 708-560-3751. Concrete work behind the sidewalk requires a building permit so please contact the Building Department at 708-385-8642.**

Arrangements for private driveway work must be made by the property owner with the contractor and is at the sole expense of the property owner.

### **Parking**

No Parking – Police Order will be posted by the contractor before work begins for that side of the street. During work on the roadway pavement surfaces, no on-street parking will be allowed between the hours of 7 a.m. and 5 p.m. Please park on neighboring side streets or in your driveway. The contractor will post no parking signs and hand-deliver a notice to your home at least 24 hours before roadway pavement surface work begins on your block. Working hours for the contractor are 7 a.m. - 7 p.m., Monday - Saturday.

### **Fire Lanes**

Streets with fire lanes will be maintained as Fire Lanes. When necessary, the fire lane will be temporarily shifted to the other side of the street to accommodate the concrete curb repairs. Please be mindful of the posted fire lane signs.

### **Additional Information/Inquiries**

The construction contractor's schedule may change according to the weather. Please be aware that completion of the job is weather permitting. The Public Works Department is working with the contractors and residents to minimize disruptions to the community. Residents living on streets within the area of scheduled work are advised to call Public Works at 708-389-9658 if you have questions regarding the Village Road Program.
