Phone (708) 389-0200  
Fax (708) 389-0255

### **BUSINESS INSPECTION PROCESS**

1. The Building Department will be the first Village Department to conduct an inspection. Please review the Village Ordinances and adopted Codes pertaining to your responsibilities as a tenant or building owner for building code compliance.
2. Obtain applicable permits for renovations and code compliance issues.
3. Once all work has been completed and you are in compliance with all of our municipal codes, the building department will conduct a final inspection. Attached in your packet is the building inspection checklist.
4. Once you have passed all your final building inspections you will need to schedule your Fire department inspection.
5. The Fire department inspection will be the final inspection before you receive a business license and a certificate of occupancy, as they will be addressing life safety compliance. The only exception to this would be if your business requires a health inspection. Attached in your packet is our Fire inspection checklist. Also, please review the Village ordinances pertaining your responsibilities as a tenant or building owner for fire protection systems.
6. Once you have passed your final Fire inspection and are in compliance with our municipal codes, the Fire department will notify the Building department and you will receive your business license and certificate of occupancy.

If you have any questions during the process or need to schedule/reschedule inspections please call the Building Department at (708) 385-8642 or the Fire Department at (708) 489-4742.

## Midlothian Fire Department – Fire Prevention Bureau

*Stephen Hotwagner*

**Fire Chief**

*Michael Lonkar*

**Fire Prevention Officer**

### **Midlothian Fire Department – Inspection checklist**

- \* Aisles must be clear at all times
- \* Exit doors and hallways leading to them must remain clear from obstruction at all times.
- \* Exit doors must be marked with an illuminated exit sign.
- \* Exit doors must be able to be opened by any occupant in the event of an emergency without use of a key, tool or special knowledge on how to open the door (some occupancies will require “panic hardware”).
- \* Emergency lighting will operate when normal electrical power is shutdown
- \* Electrical wiring and related equipment will be installed and will operate according to electrical code standards. No extension cords will be allowed to operate any fixed device.
- \* All occupancies shall have approved fire extinguishers which shall be mounted (according to code) and be serviced annually by a licensed and certified company.
- \* A fire alarm system will be required for all businesses and, depending on the occupancy classification and related code; a sprinkler system may also be required.
- \* Any fire alarm or sprinkler system must be inspected annually by a licensed and certified company.
- \* All heating, ventilation and cooling systems will be in good working order.
- \* Flammable liquids will be stored in an approved container.
- \* All pressurized cylinders must be properly secured via chain to a wall.
- \* The building must be in good shape and free from any dangerous condition.
- \* A Knox Box shall be installed for every business (as well as other occupancies as defined by code) with a key inside it to open the business by the fire department.

The items listed above are meant to serve only as a brief summary of common safety issues. The Fire Prevention Bureau performs annual fire safety inspections that cover adopted Village and Fire Codes which may be more extensive than the list above. This list is not intended to replace or supersede any laws governing fire safety or other rules under the authority of the Midlothian Fire Department.

If you have any questions, please contact the Fire Prevention Bureau at (708) 489-4742

### Business/Commercial Building Inspections Checklist

- Electric - Switches and outlets must be properly installed and maintained in good working order. Including outdoor lighting.
- GFI Outlets and any exterior outlet - Need to be installed within 6 feet of any water source.
- Doors - Every door and its hardware shall be maintained in good condition. Door locks must be in good repair and capable of locking the door.
- Sanitation - Interior areas shall be maintained in a safe, clean and sanitary condition. All areas shall be free from insect and rodent infestations and from any accumulation of refuse including storage of junk, boxes, excessive papers, parts, machinery, or any & all equipment not in an operable condition.
- Refuse Containers - Businesses are required to have a metal container with a tight-fitting lid, 1.5 cubic yards minimum.
- Carbon Monoxide Alarm Detectors - Installed in the area of furnace/boiler room.
- Windows - Glass must be free of cracks or holes, and each operating window must have screens with no rips or tears.  
Window signs that exceed fifty percent (50%) of the window surface area of each windowpane are prohibited.
- Interior Surfaces - Floors, walls, including windows and doors, ceilings, and other interior surfaces shall be maintained in good, clean, and sanitary condition. Peeling paint, cracked, or loose plaster, missing tiles, decayed wood, and other defective surface conditions shall be eliminated.

If applicable:

- Landscaping - Grass and bushes must be kept with no overgrown or dead growth. Trees shall be maintained.
- Gutters/Trim/Siding - Shall be in good repair and properly secured to the building. No peeling or chipped paint or rotted wood permitted. All gutters shall be kept clean and clear of any obstructions.
- Proper size and contrast with the background address numbers.

We hope this handout helps make the inspection process go smoother and clears up any questions you may have. Any further questions, please call the Building Dept. at (708) 385-8642.

## Midlothian Fire Department – Fire Prevention Bureau

*Stephen Hotwagner*

**Fire Chief**

*Michael Lonkar*

**Fire Prevention Officer**

New building owners and tenants,

The Midlothian Fire Department performs inspections on **ALL** businesses in Midlothian before business licenses are approved. **ALL BUSINESSES REQUIRE FIRE ALARM SYSTEMS** (Heat and/or smoke detection system) your business may require an **Automatic Fire Suppressant System (Sprinkler System) depending on occupancy type and size of building.**

### **Existing Business with a Fire Alarm**

- A fire alarm system that is NFPA 72 compliant and meets all the requirements mandated by the authority having jurisdiction and must be installed, monitored and in proper working order. All businesses are required to have a signed maintenance contract with a licensed fire alarm contractor.

### **New Business without a Fire Alarm**

- Please review the Village of Midlothian Ordinances for requirements.
- If you have any questions regarding Fire Alarm System requirements contact the Midlothian Fire Prevention Bureau. (708) 489-4742

### **Automatic Suppressant System**

- Please review the Village of Midlothian Ordinances for requirements.
- If you have any questions regarding Sprinkler System requirements contact the Midlothian Fire Prevention Bureau. (708) 489-4742

Your signature below confirms that you have been notified of these requirements.
