MS4 ANNUAL FACILITY INSPECTION REPORT  
NPDES PERMIT FOR STORM WATER DISCHARGES

**Village of Midlothian  
March 2019 to March 2020**

- A. There have been no significant changes regarding the Village BMP Schedule during the current reporting cycle.
- B. The Village believes that the BMPs identified on the NOI are still appropriate as outlined in the previous permit. The implementation of the BMPs has progressed according to the current plan during the reporting period. The following BMPs are highlighted and summarized for each category of MCMs:
- Public Education and Outreach
    - Website: The Village's Storm Water Management webpage includes their annual report and brief description of the plan, how every day events can impact the quality of their stormwater, and how the residents can help.
  - Public Participation/Involvement
    - Reporting of Illicit Discharge: Information regarding what the residents can do to help understand and identify sources of pollution is provided on the Village's website which includes a phone number to report illegal dumping.
    - Recycling Program: The Village's recycling program is still available to all of the residents in Midlothian. Related information and links are available on the website.
  - Illicit Discharge Detection and Elimination
    - Storm Sewer Map: The Village updates the Storm Sewer Atlas on a regular as needed/project by project basis.
    - Regulatory Control Program: The Village continues to enforce their Code with regard to Use of Public Sewers and Prohibited Discharges. The website includes a phone number to report illegal dumping. No phone calls were received during this reporting period.
    - Visual Dry Weather Screening: Dry weather screenings of storm structures were done at several locations during this reporting period. No physical indicators of illicit discharges were found.
    - Public Notification: The Village continues to provide its residents with annual updates on the NPDES program at the Village Board Meetings through their Public Service Statements.
  - Construction Site Runoff Control
    - Regulatory Control Program: The Village continues to enforce their Erosion and Sediment Control Ordinance. The Village's requirements are actually more stringent in that they require measures on properties that have any amount of land disturbance.

- Post-Construction Runoff Control
  - Regulatory Control Program: The Village continues to enforce their Flooding and Stormwater Ordinance with regards to storm water runoff from new development and redevelopment projects. The ordinance includes requirements for stormwater storage, conveyance, erosion and sediment control, as well as stream and wetland protection.
- Pollution Prevention/Good Housekeeping
  - Employee Training Program: The Village regularly trains personnel regarding fleet and building maintenance, operation of storage yards, snow removal, street cleaning...etc.
  - Inspection and Maintenance Program: The Village continues to perform street sweeping and storm sewer cleaning on an as needed basis.

C. No monitoring data was collected during this reporting period.

D. The Village works with the Metropolitan Water Reclamation District of Greater Chicago to enforce the Cook County Watershed Management Ordinance.

E. For the period from March 2019 to March 2020, the Village has not funded any significant construction projects requiring sediment and erosion control permitting.
